WHAT IS THE MOE-OBS CHALLENGE (MOC) PROGRAMME?

A Holistic Education

- As part of the **National Outdoor Adventure Education Masterplan**, students will have opportunities outside the classroom to develop holistically; building up their **ruggedness** and **resilience**.
- **Authentic learning experiences** help our students to develop 21st century competencies as well as competencies for **sustainable, active and healthy living**.

MOE-OBS
Challenge Programme

Outdoor Adventure Learning

1. Outdoor Education is a component of curriculum in our schools.
The MOC Programme is an expedition-based course that will bring together students from various schools, allowing them to interact and work together to overcome various challenges.
2. The experience will provide opportunities for students to:
 - a) Build camaraderie through working together in unfamiliar yet authentic situations;
 - b) Be resilient, have empathy and maintain a positive attitude when faced with adversity.
3. Through overcoming challenging obstacles with their peers, participants learn that it is possible to be innovative and to adapt to their surroundings.

What Will My Child Learn From The MOC?

Confident Person & **Resilience**

Thriving in an unfamiliar environment with other students.

Social Cohesion

Working together with students from various schools to achieve a common objective.

Concerned Citizen

Different roles they can play as a resident to the community and environment.

Enrolment

A person is sitting on a large, light-colored rock in a lush green park. They are wearing a white t-shirt, dark pants, and blue sneakers. They are looking down at a small object in their hands, possibly a phone or a small device. In the background, there are large trees and a path. Another person is visible in the distance, sitting on a bench. The overall scene is peaceful and natural.
